## The backwards law

- What is the backwards law?
  - The more you pursue feeling better all the time, the less satisfied you become, as pursuing something only reinforces the fact that you lack it in the first place.
  - The more you desperately want to be rich, the more poor and unworthy you feel
  - The more you desperately want to be sexy and desired, the uglier you come to see yourself.
  - The more you desperately want to be happy and loved, the lonelier and more afraid you become
  - The more you want to be spiritually enlightened, the more self-centered and shallow you become in trying to get there.
  - You will never be happy if you continue to search for what happiness consist of.
  - You will never live if you are looking for the meaning of life.
  - Put more simply: **DON'T TRY**

# Don't try

Everything worthwhile in life is won through surmounting the associated negative experience

- Sometimes when you stop giving a f, everything seems to fall into place.
  - when you care less about something, you do better at it
- Why it called “backwards” law?
  - Not giving a f works in reverse.
  - If pursuing the positive is a negative, then pursuing the negative generates the positive
  - The pain you pursue in the gym results in better all-around health and energy
  - The failures in business are what lead to a better understanding of what's necessary to be successful.
  - Being open with your insecurities paradoxically makes you more confident and charismatic around others.
  - The pain of honest confrontation generates the greatest trust and respect.
  - Suffering through your fears and anxieties allows you to build courage and perseverance.
